<b>C. ACCREDITATION</b>	
Has the organisation received any type of accreditation before submitting this application?	• /
Has the organisation received/applied for any EU grants?	• /

#### D. BACKGROUND AND EXPERIENCE

Primera is Erasmus+ course provider based in Slovenian capital, Ljubljana. With a team of highly experienced trainers and coaches we support teachers in their personal and professional development. We offer in-service teacher trainings since 2011 covering the following topics: cross-curricular collaboration, digital competencies, promoting STEM, teacher empowerment, soft skills development, early school leaving and inclusion, early childhood education. Our in-service trainings are EVIDENCE-BASED and PRACTICE-DRIVEN giving teachers possibilities for self-reflection and easy transfer to their classroom.

Besides offering international Erasmus+ courses we maintain an international learning community of teachers entitled Pan-European Conference on Digital Education:

<https://www.facebook.com/groups/paneconference>

The Pan-European community offers online conferences, online teacher intervention and online small learning events to help teachers successfully implement digital tools to face-to-face and online classrooms.

As our second field is also working with private companies we can successfully build bridges between world of business and world of education. With the private sector we work as a human resource management consultancy. Our projects focus on competencies models for different professions, psychometric assessments, soft skills trainings, and leadership development. Among others, we were a consortium leader of a competency development project for public workers in the state administration.

We have successfully implemented various projects with private and public institutions. Our experts are also active in European partnerships within the Erasmus+ programme, where we focus on curriculum development, train-the-trainer activities and creating engaging learning materials.

We are a proud member of EATP (European Association of Training Providers). The EATP association consists of organisations with a long track record of successful participation in European projects and a history of excellence in providing training. All members have signed up to a voluntary quality charter regarding the training and services we offer.

In 2016 we obtained a Certificate of Excellence recognized as Highest Creditworthiness Rating.

More details about our teacher training organization are on the following pages:

Please briefly present the partner organisation.

<p>What are the activities and experience of the organisation in the areas relevant for this application?</p>	<p>Primera’s evidence-based and practice-driven courses provide support for the professional development of teachers, school leaders and other educational staff. We offer more than 20 different courses. Topics are diverse, but they are focused on development of teachers’ and schools’ staff competencies for teaching in 21<sup>st</sup> century.</p> <p>Our main activities are:</p> <ul style="list-style-type: none"> <li>• delivering local, national and international in-service teacher trainings;</li> <li>• curriculum development;</li> <li>• learning material creation both online and offline;</li> <li>• organizing big conferences both online and offline;</li> <li>• train-the-trainers events;</li> <li>• dissemination in the field of teacher development;</li> <li>• Key Action 2 Erasmus+ projects under the framework of the non-profit Step Institute.</li> </ul> <p>Our main working areas encompass cross-curricular collaboration, digital competencies, promoting STEM, teacher empowerment, soft skills development, early school leaving and inclusion, early childhood education. By our work we aim to empower teachers so they can do their work best.</p> <p>We don’t believe Erasmus+ is the right place to experiment. The most interesting training courses are implemented many times on local, national and international level. We use only the best professionals for each topic and that’s why many trainers are external trainers, hired for the need of specific Erasmus+ course.</p>
<p>What are the skills and expertise of key staff/persons involved in this application?</p>	<p>We’ve carefully chosen the most competent trainers for each covered topic. All have proven international certificates, years of experience and highly interactive approach to teaching. They are able to establish informal learning climate, where participants can relax and share their dilemmas and experiences. Last but not the least: they speak fluent, but still easily understandable English.</p> <p>Professional background of our trainers is multidisciplinary including science and humanities. All trainers are recognized as experts with rich practical experiences backed with scientific evidence. We focus on practical solutions that can solve real-life challenges. Our trainers promote brain-friendly learning with engaging activities. They teach and practice a growth mindset. The trainers encourage participants to tackle challenges because they understand that learning takes a lot of effort. They support participants not to give up when things get difficult by introducing strategies to persevere. We empower teachers to take risks, adopt participative learning methodologies, and understand that mistakes are normal when people try hard things.</p> <p>Here is a brief description of Dr Blanka Tacer, director of Primera Group:</p> <p><i>Blanka Tacer, PhD, professionally focuses on work and organizational psychology and supports private and public companies in building and implementing their human resources management strategy. She works as a coach, trainer and consultant in the field of human resources development, organizational growth and knowledge management. As a member several professional associations she is in touch with the latest literature on adult learning and teacher development. Personal and professional development through permanent trainings at home and abroad is a part of her work life. She concluded 1 year coaching training at the University of Cambridge. She is also a NLP (Neuro-linguistic Programming) master practitioner and qualified SDI</i></p>
